WHO ARE WE?

Cloverdale and Visions are very special schools that serve students from eleven local school districts in Oakland County. Our students range in age from three years to 26 years. All of our students have unique needs that drive their individual educational plan. Our students vary in need and their functioning greatly. All of our students need a safe and supportive environment. Our goal is to allow our students to become as functionally independent as possible within school, home and community.

Our program runs-year round and educational experiences focus on communication, independence and daily living skill enhancement. The school staff is a dedicated group of professionals who help our students to meet their individual program goals. The uniqueness of our students also means that our need for adaptive instructional and recreational equipment is also specialized. New technology produces communication and daily living adaptations that allow our students to experience new successes. We are proud and appreciative of support from the Farmington Public Schools, the parents of our students and many private and corporate partners who provide the resources to assure our students the opportunity to realize success within our very complex world.
